Sage Filter Test Document

1. Basic Arithmetic

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

2. Mathematical Functions

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

3. Plotting

3.1 Basic Plot

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

3.2 3D Plot

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

4. Linear Algebra

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

5. Number Theory

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

6. Fibonacci Sequence

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

7. Error Handling

7.1 Syntax Error

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

7.2 Runtime Error

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

8. LaTeX Output

Error executing Sage code: 'SageRunner' object has no attribute 'execute'

9. Conclusion

This document tests various Sage features including: - Basic arithmetic and variables - Mathematical functions and calculus - 2D and 3D plotting - Linear algebra - Number theory - Silent computation - Error handling - LaTeX output generation
